I dedicate my book to my
Mom, my Dad and my
sister.

One day, my friends, Cordan, Trace and I went into the forest looking for Big Foot. Sightings of Big Foot were seen in this area.

We were in the forest and saw trees knocked over. We were scared when we looked closer at the trees and saw claw marks!

We saw a lake and to our surprise there was a pleisouras creature swimming! Trace screamed, the creature saw us!, I knew exactly what it was! The LOCH NESS MONSTER, making a strange noise. We had to be calm, it would harm us!

We saw this thing walking into a leafy cave! We were curious and wanted a closer look. Nervously and excited, we go in the damp and dark cave.

A loud growl scared us, Trace took a picture and ran quickly out of the cave! BIG FOOT was chasing us! We told our getaway driver, "RUN FOR YOUR LIFE!" We opened our backpacks, threw the saddles that we had, on to the Lock Ness Monster and swam away!
